Professional Summary

Full Stack Developer with hands-on experience building and deploying MERN stack web applications. Skilled in Developing RESTful APIs, implementing authentication and authorization, integrating MongoDB databases, and creating responsive user interfaces using React.js. Passionate about writing clean, maintainable code, learning modern software engineering practices and contributing to real-world web development projects

Technical Skills

- **Programming Languages:** C, JavaScript
 - **Frontend:** HTML5, CSS3, React.js, Redux Toolkit, Tailwind CSS, Bootstrap
 - **Backend:** Node.js, Express.js, REST API Development
 - **Database Management:** MySQL, MongoDB
 - **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel, MongoDB Compass, Mongoose, MongoDB Atlas
-

Education

Master of Computer Science **2025 – 2027**

Modern College Pune | Savitribai Phule Pune University | Pursuing

Bachelor of Computer Science **2022 – 2025**

MGP College Ahilyanagar | Savitribai Phule Pune University | CGPA: 7.39

Projects

StayFinder – Full-Stack Property Rental Platform | [GitHub](#) | [Live](#)

- Engineered a full-stack property rental platform featuring secure authentication, property listings, booking management, favorites, reviews, and a dedicated host dashboard
- Implemented role-based access control, booking validation, responsive UI, dark mode, and real-time user feedback to improve user experience
- Technologies Used: Node.js, Express.js, MongoDB, Mongoose, EJS, Tailwind CSS, JavaScript

StyleKart – Fashion E-commerce Web Application | [GitHub](#) | [Live](#)

- Built a responsive e-commerce application with product catalog, category filtering, search, wishlist, and cart functionality
- Developed RESTful APIs and integrated MongoDB using Mongoose for product and cart management
- Technologies Used: React.js, Redux, Node.js, Express.js, MongoDB, Mongoose, Bootstrap, REST APIs

Task Management Web Application | [GitHub](#) | [Live](#)

- Created a full-stack task management application supporting task creation, update, deletion, completion tracking, and inline editing
 - Developed REST APIs with Node.js, Express.js, and MongoDB for seamless frontend-backend data synchronization
 - Technologies Used: React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs
-

Internship Experience

Web Development Intern – Oasis Infobyte (Remote) **Apr 2026 – May 2026**

- Developed responsive web pages using HTML, CSS, and JavaScript to ensure cross-device compatibility
 - Implemented frontend features and enhanced user interface components for better usability
 - Used Git and GitHub for version control and collaborative development
-

Certifications

- KnowledgeGate - NodeJS + ExpressJS and MongoDB Certificate **Aug 2026**
- KnowledgeGate - React and Redux Certificate **Apr 2026**
- CSMS-DEEP Diploma (Issuing MKCL) **Apr 2024**
